<input type="checkbox"/>	Ruddy Shelduck	Rare vagrant. Origins suspect.
<input type="checkbox"/>	Shelduck	Small numbers up to 10 in most months. Up to 5 pairs breed.
<input type="checkbox"/>	Mandarin Duck	Occasional visitor.
<input type="checkbox"/>	Wigeon	Common winter visitor.
<input type="checkbox"/>	American Wigeon	One record in 1985.
<input type="checkbox"/>	Falcated Teal	One record in 1981.
<input type="checkbox"/>	Gadwall	Up to 30 in winter. Breeds regularly.
<input type="checkbox"/>	Teal	Resident. One or two pairs breed. Usually up to 50 in winter.
<input type="checkbox"/>	Green-winged Teal	One record in April 1980.
<input type="checkbox"/>	Mallard	Resident. Commonly breeds.
<input type="checkbox"/>	Pintail	One or two most winters.
<input type="checkbox"/>	Garganey	A few occur most summers. Has bred but not in recent years.
<input type="checkbox"/>	Shoveler	Resident. One or two pairs breed.
<input type="checkbox"/>	Marbled Duck	One recorded in 1990.
<input type="checkbox"/>	Red-crested Pochard	Very rare vagrant.
<input type="checkbox"/>	Pochard	Winter visitor 50-100. A few in summer and have bred in past.
<input type="checkbox"/>	Ring-necked Duck	Very rare vagrant. Two records - 1978 and 1979.
<input type="checkbox"/>	Ferruginous Duck	Very rare vagrant.
<input type="checkbox"/>	Tufted Duck	Resident. About 20 pairs breed. Up to 200 in winter.
<input type="checkbox"/>	Scaup	Rare winter visitor recorded in 2009.
<input type="checkbox"/>	Lesser Scaup	One record 2005.
<input type="checkbox"/>	Eider	Rare visitor.
<input type="checkbox"/>	Long-tailed Duck	Very rare vagrant. 4 records - 1967, 1973, 1989 & 2005.
<input type="checkbox"/>	Common Scoter	Occasional visitor, often in summer. Party of 11 largest recorded.
<input type="checkbox"/>	Velvet Scoter	Very rare vagrant. One record in 1969.
<input type="checkbox"/>	Goldeneye	Winter visitor, with spring peak around 50.
<input type="checkbox"/>	Smew	Regular winter visitor.
<input type="checkbox"/>	Red-breasted Merganser	Rare winter visitor. Two recordings - 1981 & 1990.
<input type="checkbox"/>	Goosander	Winter visitor.
<input type="checkbox"/>	Ruddy Duck	Small numbers frequently present.
<input type="checkbox"/>	Red-legged Partridge	Occasionally recorded.
<input type="checkbox"/>	Grey Partridge	Occasionally recorded. Rare visitor.
<input type="checkbox"/>	Quail	Very rare. One recorded in 1964.
<input type="checkbox"/>	Pheasant	Resident in small numbers.
<input type="checkbox"/>	Red-throated Diver	Rare winter visitor. First recorded 1979.
<input type="checkbox"/>	Black Throated Diver	Very rare winter visitor. One record in 1955.
<input type="checkbox"/>	Little Grebe	Resident. 2-3 pairs regularly breed.
<input type="checkbox"/>	Great Crested Grebe	Resident. 20 pairs breed.
<input type="checkbox"/>	Red-necked Grebe	Rare winter visitor.
<input type="checkbox"/>	Slavonian Grebe	Rare winter visitor.
<input type="checkbox"/>	Black-necked Grebe	Passage migrant.
<input type="checkbox"/>	Fulmar	1 recorded crashed into ice 1987.
<input type="checkbox"/>	Manx Shearwater	Very rare. Records in 1988 & 1991.
<input type="checkbox"/>	Leach's Storm Petrel	Very rare visitor.
<input type="checkbox"/>	Gannet	Very rare visitor. At least three records.
<input type="checkbox"/>	Cormorant	Winters in numbers up to 100 including Southern Race.
<input type="checkbox"/>	Shag	Rare vagrant. Record in 1978, 1980, 1984, 1993, 1996.
<input type="checkbox"/>	Bittern	Rare visitor in winter.
<input type="checkbox"/>	Little Bittern	Very rare visitor. One recorded 1980.
<input type="checkbox"/>	Night Heron	Very rare visitor 2000.
<input type="checkbox"/>	Little Egret	Regular passage migrant up to 20 recorded in 2011.

<input type="checkbox"/>	Grey Heron	Small numbers regular outside breeding season with late summer peak.
<input type="checkbox"/>	White Stork	Rare visitor 1 recorded 2000.
<input type="checkbox"/>	Spoonbill	Rare vagrant. Latest record June 2005.
<input type="checkbox"/>	Honey Buzzard	Rare visitor 1993.
<input type="checkbox"/>	Red Kite	Rare visitor.
<input type="checkbox"/>	Marsh Harrier	Occasional visitor.
<input type="checkbox"/>	Hen Harrier	Noted occasionally outside the breeding season. One bird wintered 2005/6.
<input type="checkbox"/>	Goshawk	Rare visitor. Recorded in 1985, 1987 & 1988.
<input type="checkbox"/>	Sparrowhawk	Resident breeder.
<input type="checkbox"/>	Buzzard	Resident, probably breeds in the area.
<input type="checkbox"/>	Osprey	Rare passage migrant, one or two occur most years.
<input type="checkbox"/>	Kestrel	Resident with 1-3 breeding pairs.
<input type="checkbox"/>	Merlin	Rare winter visitor.
<input type="checkbox"/>	Hobby	Regular summer visitor.
<input type="checkbox"/>	Peregrine Falcon	Regular sightings throughout the year.
<input type="checkbox"/>	Water Rail	Winter visitor has bred in the past.
<input type="checkbox"/>	Spotted Crake	Very rare, records in 1975 and 1991.
<input type="checkbox"/>	Corncrake	Very rare, two records in 1976 and 2002.
<input type="checkbox"/>	Moorhen	Resident in good numbers.
<input type="checkbox"/>	Coot	Resident. About 30 pairs breed. Between 500 and 600 in winter.
<input type="checkbox"/>	Common Crane	Recorded 2005, second record December 2011.
<input type="checkbox"/>	Oystercatcher	Regular visitor. One or two pairs breed.
<input type="checkbox"/>	Avocet	Very rare. Several records. Last recorded in 2005.
<input type="checkbox"/>	Little Ringed Plover	Summer visitor. Occasional breeder.
<input type="checkbox"/>	Ringed Plover	Annual visitor, has bred.
<input type="checkbox"/>	Kentish Plover	Very rare vagrant. One recorded in 1977.
<input type="checkbox"/>	Golden Plover	Winter visitor. An exceptional 1,000 in Year 2000 but generally 50-100.
<input type="checkbox"/>	Grey Plover	Scarce, but annual, passage migrant.
<input type="checkbox"/>	Lapwing	Resident. Around 3 pairs breed. Large numbers in winter.
<input type="checkbox"/>	Knot	Passage migrant.
<input type="checkbox"/>	Sanderling	Passage migrant.
<input type="checkbox"/>	Little Stint	Passage migrant.
<input type="checkbox"/>	Temminck's Stint	Rare visitor. Several records.
<input type="checkbox"/>	Pectoral Sandpiper	Very rare visitor.
<input type="checkbox"/>	Curlew Sandpiper	Passage migrant, invariably in Autumn.
<input type="checkbox"/>	Purple Sandpiper	Very rare. One record in 1978 & in 1991.
<input type="checkbox"/>	Dunlin	Regular passage migrant or winter visitor in small numbers.
<input type="checkbox"/>	Ruff	Annual passage migrant in small numbers.
<input type="checkbox"/>	Jack Snipe	One or two occur most winters.
<input type="checkbox"/>	Snipe	Winter resident.
<input type="checkbox"/>	Woodcock	Regular winter visitor.
<input type="checkbox"/>	Black-tailed Godwit	Passage migrant.
<input type="checkbox"/>	Bar-tailed Godwit	Passage migrant.
<input type="checkbox"/>	Whimbrel	Passage migrant. A few pass through most years.
<input type="checkbox"/>	Curlew	Regular passage migrant in small numbers.
<input type="checkbox"/>	Common Sandpiper	Passage migrant. Summer visitor.
<input type="checkbox"/>	Green Sandpiper	Occurs on passage and one or two usually winter.
<input type="checkbox"/>	Spotted Redshank	Occasional passage migrant.
<input type="checkbox"/>	Greenshank	Passage migrant.
<input type="checkbox"/>	Wood Sandpiper	Passage migrant.
<input type="checkbox"/>	Redshank	Passage migrant. One or two pairs have bred.
<input type="checkbox"/>	Turnstone	Passage migrant.
<input type="checkbox"/>	Red-necked Phalarope	One record in April 2000.
<input type="checkbox"/>	Grey Phalarope	Very rare. One record in 1969.
<input type="checkbox"/>	Arctic Skua	Very rare vagrant. Records in 1976, 1985 & 1989.
<input type="checkbox"/>	Kittiwake	Rare visitor.
<input type="checkbox"/>	Black-headed Gull	Resident, common breeder.
<input type="checkbox"/>	Little Gull	Passage migrant.
<input type="checkbox"/>	Mediterranean Gull	First record 1992. One or two recorded most years.
<input type="checkbox"/>	Common Gull	Winter visitor.
<input type="checkbox"/>	Lesser Black-backed Gull	Present all year round.
<input type="checkbox"/>	Herring Gull	Winter visitor.
<input type="checkbox"/>	Yellow-legged Gull	Summer visitor.
<input type="checkbox"/>	Iceland Gull	Very rare winter visitor.
<input type="checkbox"/>	Glaucous Gull	Very rare winter visitor.
<input type="checkbox"/>	Great Black-backed Gull	Winter visitor.
<input type="checkbox"/>	Little Tern	Passage migrant.
<input type="checkbox"/>	Gull-billed Tern	Very rare, first record 2006.
<input type="checkbox"/>	Caspian Tern	Very rare vagrant. Records in 1975, 1976 & 1993.
<input type="checkbox"/>	Whiskered Tern	Very rare vagrant. Two records in 1976 & 1987.
<input type="checkbox"/>	Black Tern	Regular passage migrant, occasionally in good numbers.
<input type="checkbox"/>	White-winged Black Tern	Very rare visitor. Last recorded on 26.8.2001.
<input type="checkbox"/>	Sandwich Tern	Passage migrant.
<input type="checkbox"/>	Common Tern	Regular passage migrant. Small breeding colony.
<input type="checkbox"/>	Roseate Tern	Rare visitor. Last recorded in May 2008.

<input type="checkbox"/>	Arctic Tern	Regular passage migrant.
<input type="checkbox"/>	Little Auk	Rare winter visitor. Two records - 1984 & 1990.
<input type="checkbox"/>	Feral Pigeon	Flock of 20-50 at times 1950-2009.
<input type="checkbox"/>	Stock Dove	Resident. A few pairs breed. Small flock in winter.
<input type="checkbox"/>	Wood Pigeon	Resident. Breeds commonly. Winter roost of 200-300.
<input type="checkbox"/>	Collared Dove	Resident. One or two pairs breed.
<input type="checkbox"/>	Turtle Dove	Summer visitor. 1 to 4 pairs breed.
<input type="checkbox"/>	Cuckoo	Summer visitor. 2005-9 only 2-3 birds noted.
<input type="checkbox"/>	Barn Owl	Recorded throughout the year. Breeds in nest boxes on site.
<input type="checkbox"/>	Little Owl	Occasional visitor.
<input type="checkbox"/>	Tawny Owl	Resident. One or two pairs breed.
<input type="checkbox"/>	Long-eared Owl	Scarce winter visitor. Occasional breeder.
<input type="checkbox"/>	Short-eared Owl	Occasional visitor in the winter.
<input type="checkbox"/>	Swift	Summer visitor. Feeding parties of 200-300.
<input type="checkbox"/>	Kingfisher	Resident, two or three pairs breed.
<input type="checkbox"/>	Hoopoe	Rare visitor last seen 1995.
<input type="checkbox"/>	Wryneck	Rare visitor 2001.
<input type="checkbox"/>	Green Woodpecker	Resident.
<input type="checkbox"/>	Great Spotted Woodpecker	Resident.
<input type="checkbox"/>	Lesser Spotted Woodpecker	Occasional visitor.
<input type="checkbox"/>	Skylark	1 or 2 pairs resident.
<input type="checkbox"/>	Sand Martin	Summer visitor. Feeding parties of several hundreds.
<input type="checkbox"/>	Swallow	Summer visitor. One or two pairs breed. Numerous on passage.
<input type="checkbox"/>	House Martin	Summer visitor. Feeding parties numerous.
<input type="checkbox"/>	Tree Pipit	Rare passage migrant.
<input type="checkbox"/>	Meadow Pipit	Resident. Several pairs breed. Common passage.
<input type="checkbox"/>	Rock Pipit	Rare winter visitor.
<input type="checkbox"/>	Water Pipit	Rare winter visitor.
<input type="checkbox"/>	Yellow Wagtail	Summer visitor.
<input type="checkbox"/>	Grey Wagtail	One or two resident.
<input type="checkbox"/>	Pied Wagtail	Resident. One or two pairs breed. Small parties in winter.
<input type="checkbox"/>	White Wagtail	Passage migrant.
<input type="checkbox"/>	Waxwing	Rare winter visitor. One record in 1974 and 30 in 2005.
<input type="checkbox"/>	Wren	Abundant resident.
<input type="checkbox"/>	Duncock	Resident.
<input type="checkbox"/>	Robin	Resident.
<input type="checkbox"/>	Nightingale	Very rare. One record in 1978.
<input type="checkbox"/>	Black Redstart	Rare visitor.
<input type="checkbox"/>	Redstart	Scarce, but annual, passage migrant.
<input type="checkbox"/>	Whinchat	Passage migrant.
<input type="checkbox"/>	Stonechat	Regular winter visitor in small numbers.
<input type="checkbox"/>	Wheatear	Regular passage migrant.
<input type="checkbox"/>	Greenland Wheatear	Late Spring passage.
<input type="checkbox"/>	Ring Ouzel	One record 2005.
<input type="checkbox"/>	Blackbird	Resident.
<input type="checkbox"/>	Fieldfare	Common winter visitor. Autumn flocks up to 500.
<input type="checkbox"/>	Song Thrush	Resident in reasonable numbers.
<input type="checkbox"/>	Redwing	Common winter visitor. Autumn numbers up to 500.
<input type="checkbox"/>	Mistle Thrush	Resident.
<input type="checkbox"/>	Cetti's Warbler	Rare summer visitor.
<input type="checkbox"/>	Grasshopper Warbler	Summer visitor. Up to 3 breeding pairs annually.
<input type="checkbox"/>	Savi's Warbler	Rare summer visitor. Only two recorded 1976 & 1977.
<input type="checkbox"/>	Sedge Warbler	Summer visitor. Well established breeding colony 10+ pairs.
<input type="checkbox"/>	Reed Warbler	Summer visitor. Well established breeding colony 5-10 pairs.
<input type="checkbox"/>	Blackcap	Summer visitor. Well established. Breeding colony 10 pairs.
<input type="checkbox"/>	Garden Warbler	Summer visitor. Well established. Breeding colony 6+ pairs.
<input type="checkbox"/>	Lesser Whitethroat	Summer visitor. Three or four pairs breed.
<input type="checkbox"/>	Whitethroat	Summer visitor. Breeds in good numbers. Well established.
<input type="checkbox"/>	Wood Warbler	Passage migrant.
<input type="checkbox"/>	Chiffchaff	Summer visitor. Well established. Breeding colony 6-10 pairs.
<input type="checkbox"/>	Willow Warbler	Summer visitor. Well established. Breeding colony 6-10 pairs.
<input type="checkbox"/>	Goldcrest	Resident breeder.
<input type="checkbox"/>	Firecrest	Rare winter visitor. First record 1985.
<input type="checkbox"/>	Spotted Flycatcher	Occasional summer visitor.
<input type="checkbox"/>	Pied Flycatcher	Rare passage migrant.
<input type="checkbox"/>	Bearded Tit	Rare visitor.
<input type="checkbox"/>	Long-tailed Tit	Resident.
<input type="checkbox"/>	Blue Tit	Common resident.
<input type="checkbox"/>	Great Tit	Common resident.
<input type="checkbox"/>	Coal Tit	Resident.
<input type="checkbox"/>	Willow Tit	Resident.
<input type="checkbox"/>	Marsh Tit	Occasional visitor.
<input type="checkbox"/>	Nuthatch	Resident.
<input type="checkbox"/>	Treecreeper	Resident.
<input type="checkbox"/>	Golden Oriole	Scarce visitor. One record in 1984 and 2008

<input type="checkbox"/>	Great Grey Shrike	Very rare winter visitor.
<input type="checkbox"/>	Jay	Resident.
<input type="checkbox"/>	Magpie	Common resident.
<input type="checkbox"/>	Jackdaw	Common visitor.
<input type="checkbox"/>	Rook	Common visitor.
<input type="checkbox"/>	Carrion Crow	Resident. Four or five pairs breed.
<input type="checkbox"/>	Hooded Crow	Rare visitor
<input type="checkbox"/>	Raven	Occasional visitor since 2000.
<input type="checkbox"/>	Starling	Regular visitor.
<input type="checkbox"/>	House Sparrow	Resident in small numbers.
<input type="checkbox"/>	Tree Sparrow	Rare visitor.
<input type="checkbox"/>	Chaffinch	Common resident.
<input type="checkbox"/>	Brambling	Occasional winter visitor.
<input type="checkbox"/>	Greenfinch	Resident in small numbers. Winter flocks up to 100.
<input type="checkbox"/>	Goldfinch	Resident.
<input type="checkbox"/>	Siskin	Regular winter visitor.
<input type="checkbox"/>	Linnet	Resident. Up to 12 pairs breed. Autumn flocks of 200-300.
<input type="checkbox"/>	Twite	Very rare visitor. Two in 1978 the only record.
<input type="checkbox"/>	Lesser Redpoll	Occasional visitor.
<input type="checkbox"/>	Redpoll	Resident. A few pairs breed. Small flocks in winter.
<input type="checkbox"/>	Bullfinch	Resident in small numbers.
<input type="checkbox"/>	Hawfinch	Scarce visitor
<input type="checkbox"/>	Lapland Bunting	Very rare winter visitor. A few in 1977/78.
<input type="checkbox"/>	Snow Bunting	Very rare winter visitor. One record in 1985.
<input type="checkbox"/>	Yellowhammer	Winter visitor.
<input type="checkbox"/>	Reed Bunting	Resident. Breeds commonly.
<input type="checkbox"/>	Corn Bunting	Rare winter visitor.

Birds are listed following the British Ornithologists' Union list of bird species.

In addition, several exotic species have been recorded, of which the following are the most interesting:

Pelican sp.	Flamingo sp.	Bar-headed Goose
